Lottery Numbers

- All students eligible for housing and planning to live on campus will be assigned a lottery number. These numbers are generated by number of credits completed. The numbers are assigned lowest to highest, therefore students with a highest number of credits toward their bachelor's degree will be given lowest numbers.
- You will receive your lottery number card in your campus email on Friday, April 28th
- Points for attending information sessions: These sessions are optional, however each person who attends one information session will receive 5 "bonus points" added to their number of credits (higher chance for lower number).

Room Selection 2023-2024 Information

- The information sessions are identical, and students only need to attend one to receive their 5 bonus points.
- For example, a first year student might have 20 credits. If the student attends the session, 5 points will be added to that, so a total of 25 points will go towards the lottery.

Selecting Roommates/Suitemates

- Your lottery number allows you to select your housing assignment as a single, double, or group. This is based on the number of credits completed.
- Groups must fill the entire suite: If you are requesting suites and you do not have 5 members. We will combine groups. For example: If you have 3 people who want to share a suite and there are 2 other people who want to share, we will combine all 5 into one suite *if necessary*. If you care deeply which 5 people are in your suite, plan ahead.
- You cannot request to have more than 4 *additional* students
- Use the person with the lowest lottery number
- **Plan ahead** with multiple options
- All members of a group requesting to be together (whether it's a full suite, group of 3 or a pair who want to be roommates) should be present when the best lottery number is called or have their **proxy form** with the group leader.
- If you are hoping to select a single room in suites and have no preferences about who lives in your suite or on your floor, please check to see if you have a competitive lottery number. You will need an alternate plan if your lottery number is high.

Room Selection Day

- Lottery numbers will be called beginning with number one. When your number is called, you walk up to staff table and select a room for you and everyone on your Lottery Card.
- You may want to take a walk around the buildings ahead of time to note room/suite number etc. and have a back up plan if what you want gets taken.
- We will have a live excel sheet going up on a big screen that will update people's choices as we go.
- Mid June you will receive a confirmation via campus email about your housing assignment for the academic year. All spaces are impacted by enrollment and Bryn Athyn College reserves the right to change the assignments based on need.
