

Swedenborgiana Exhibition

The Education and Inspiration of Emanuel Swedenborg (1688-1772)

Swedenborg was a perennial scholar, an engineer, a mathematician, scientist, philosopher, anatomist and finally a revelator, a servant of the Lord Jesus Christ.

This exhibit traces his development from childhood until his spiritual experiences. It closes with exhibits from his time as a revelator by displaying copies of books and documents Swedenborg had in his own library, books he owned and studied in his intellectual journey from childhood to old age.

Please visit the exhibition in the Swedenborgiana and Archives Reading Room located in the lower level of the Swedenborg Library. The exhibit is open at the following times during October 2021:

Tuesdays 9:00 - 12:00
Thursdays 2:00 - 4:00
Charter Day Weekend:
Friday 2:00 - 4:00
