

BRYN ATHYN COLLEGE

Preliminary Transfer Credit Assessment

Based on a transcript from an accredited institution and official course descriptions, assign each transfer-eligible course (grade of C- or above) to one of three categories:

- **Elective Credit:** Credit counts toward degree but is not assigned a particular discipline (e.g., Elect1xx).
- **Distribution Credit:** Credit counts toward degree and is accepted in a particular discipline. Distribution credit will apply to most courses. Students that transfer courses with distribution credit can work with the head of their major to see if those courses can fulfill any specific degree requirements (e.g., Hist2xx).
- **Specific Equivalent Credit:** Granted when an acceptable course matches one of the following Bryn Athyn College courses or when consultation with an area head regarding specific cases suggests specific equivalence is appropriate:

¹Explanation of originating institution's course numbering and levels: _____

Make the student aware that the credit transfer process does not evaluate transfer courses for fulfilling skill requirements in the Core Program. Most courses require further evaluation (see Core Skill Transfer Credit Form) before they are accepted as fulfilling Core skill requirements. Also inform the student that a course syllabus may be required to assign official credit in some cases.

Place this form, the transcript, and course description(s) in the student file.
