Further information regarding Bryn Athyn College cohort persistence and graduation rates is available through the NCES College Navigator:

<http://nces.ed.gov/collegenavigator/?q=Bryn+Athyn+College&s=all&id=210492>.

In some cases the information presented above differs from the information available through NCES. This is due to differences in the methodology used to identify BA/BS-seeking cohorts. Prior to 2010 Bryn Athyn College did not have a systematic means of differentiating BA/BS-seeking students from AA- or non-degree-seeking students.
