# UNDERGRADUATE DEGREE PROGRAMS

## INTRODUCTION

Bryn Athyn College offers a variety of liberal arts degrees and a pre-professional degree in Education. Students can earn a four-year bachelor in arts (BA) in Biology, English, History, Psychology, Religion, and interdisciplinary programs. Four-year bachelor in science (BS) degrees are offered in Biology and Education. Students may also earn a two-year associate in arts (AA) degree with a variety of emphases.

All of the degree programs rest on the Core Program which builds the foundational skills, knowledge, and perspectives every student engages during a Bryn Athyn College Education. Every liberal arts major requires the Core Program, the Education major and the AA degree require a significant portion of the program, and every course in the curriculum addresses Core goals directly and indirectly.

## CORE PROGRAM

The Core Program serves students in three ways: it helps them develop spiritual purpose; it teaches them to think broadly and critically from a variety of perspectives; and it empowers them with specific skills so that they may act effectively in society and the workplaces of the 21st century.

## CORE GOALS

Bryn Athyn College prepares willing students to become reflective individuals and useful citizens, conscious of spiritual reality and responsive to local, national, and international contexts. The Core Program encourages faculty to place each subject of study within a New Church spiritual context. The program develops across four years, with every course in the curriculum addressing (directly or indirectly) one or more of the following six goals:

1. Strengthen analytical, information, technological, quantitative, and scientific reasoning skills
2. Develop liberal arts skills in a focused field of study
3. Develop critical thinking skills across disciplines
4. Explore the diversity and commonality of human experience and values in order to enrich understanding of what is human

5. Nurture an inquiring spirit in the classroom and well beyond in relation to God, society, nature, and self
6. Foster personal ethics and encourage responsibility for the wellbeing of others

Taken together, these goals underscore our commitment to all three dimensions of the Core Program: a New Church world view, liberal arts perspectives, and skills associated with the ways educated people participate in society.

## **CORE REQUIREMENTS**

# **BACCALAUREATE DEGREE PROGRAMS**

## **INTRODUCTION**

The bachelor in arts (BA) and bachelor in science in biology (BS) degrees are four-year liberal arts degrees. Students earning a Bryn Athyn College liberal arts BA or BS must fulfill Core Program requirements (outlined above), college residency requirements (see the Undergraduate Student Handbook), and the individual major requirements which are explained in the program sections that follow.

Students should declare a major by the end of their second year. Students cannot advance to fourth-year status if they have not been accepted into a major. Each major has different application procedures and interested students should contact the respective program director.

Graduation requires at least 130 credits with an overall GPA of 2.00 although individual majors may have higher requirements; a minimum of 66 credits must be Bryn Athyn College credits and the last 27 must be in residence. Exceptions will be made in the final 27 credit requirement for those students in approved internships or approved courses or programs at other institutions.

## **BIOLOGY MAJOR**

The Biology Major is a four-year program leading to a baccalaureate. Students may choose from two degree programs: a bachelor of science (BS) and a bachelor of arts (BA). The BS degree program is recommended for those who plan to continue their education in graduate school or medical school. The BA degree is a general liberal arts program that prepares graduates for a variety of career fields.

Applicants for the BS and BA programs should have completed at least 18 credits, 7 in science, and compiled a minimum overall GPA of 2.00 and a minimum of 2.50 in science courses. 130 credits and an overall GPA of 2.00 are required for graduation.

As part of the four-year degree requirements, students must complete a senior project (Biology 495). The project is under the supervision of a faculty member at Bryn Athyn College or another institution. Proposals for this project must be submitted by the students in the spring of the junior year.

Applications (available in the College Office) should be addressed to the Biology Program Director, Dr. Sherri Cooper.

### **COURSE REQUIREMENTS: BACHELOR OF SCIENCE DEGREE**

(BEYOND CORE AND RESIDENCY REQUIREMENTS\*)

- Principles of Biology (Biology 120), Genetics (Biology 230), Cell Structure and Function (Biology 232), Ecology (Biology 235), and an organismal biology (Biology 125, 240, or 245). Bio122 and 123 for class of 2015.

- Seminar (490, 491, 492) required in senior year. Total of 3 credits only count toward the degree.
- Four additional 200/300-level biology courses, one of which must be 300-level.
- Senior project (Biology 495).

### **COURSE REQUIREMENTS: BACHELOR OF ARTS DEGREE**

- The requirements for the BA degree are the same as those for the BS degree

except for the following:

- Mathematics 140 may be taken in the place of Mathematics 150.
- Physics is not required.
- Only one term (2 credits) of biological laboratory techniques (Biology 373 or 375) is required.
- Four additional biology courses. These four courses may include one of either Earth Science 110 or Biology 110, if taken before junior year.
- Two additional science or mathematics courses (Mathematics 151 or higher, Computer Science 180 or higher, Physics 210-211, Chemistry 211, or any 200-level or higher biology).

## **EDUCATION MAJOR**

### **EARLY CHILDHOOD EDUCATION**

The Education Major offers a program that complies with Pennsylvania Department of Education (PDE) certification requirements. This curriculum also offers students a rich background in New Church educational philosophy, teaching competencies and preparation for teaching in New Church schools. Students entering the program will be able to earn a degree in Early Childhood Education (ECE) which spans ages birth through age 9 and grade levels pre-kindergarten through grade four. Upon completion of the program outlined below, students will receive their degrees from Bryn Athyn College and be able to apply for state certification through Holy Family University.

The program emphasizes New Church and secular educational principles as well as knowledge of subject matter, human development, accommodation and skills in teaching. Rich in field experiences (FE) students will begin to acquire the knowledge, skills and dispositions required in the profession, an intelligent love of children, productive peer relationships and professional development.

The course requirements are sequential and quite specific and the timeline for this degree program is well mapped out for those students who enter college knowing their goal is to become a teacher. Occasionally a student may find it necessary to take a course at Holy Family University and every student will do their senior teaching and seminar there through a consortium agreement with Bryn Athyn College. Tuition for senior teaching is paid by each student working with the Bryn Athyn College bursar's office.

All students are required to complete the full program, but it should be noted that international students are ineligible for state certification. These students should meet with the Education program director to discuss a program that best fulfills the degree requirements and suits the individual student's professional goals. If students become United States citizens within ten years from graduation, their degree and their National Teachers' Exams test scores will still be valid. They may then apply for certification.

## **ADMISSION REQUIREMENTS AND PROCEDURES**

Students considering a major in Early Childhood Education should meet with the Education program director as soon as possible to ensure their courses align with major requirements.

Applicants to the Education major should have completed at least 18 credits with a minimum overall GPA of 2.80. Formal acceptance as a major requires a letter submitted to the Education program director clearly stating reasons for seeking admission to the major and successful completion of the national standardized PRAXIS I tests in reading, writing, and mathematics.

Students should also demonstrate the personal qualities expected of good teachers. All programs will be approved by the program director and the academic dean. For more information, please consult the program director, Nina Phillips.

### **FIELD EXPERIENCE REQUIREMENTS**

The Bryn Athyn College Education program is heavily steeped in the practical application of the skills and practices acquired in courses. During the third year students will spend 2 days a week in an ECE classroom giving them 360 hours of experience

with students and teachers in that setting. Students should expect to have placements in public schools and other private institutions as well in order to have the broadest possible experience prior to senior teaching. In the fourth year there is a 72 hour field experience in upper grade levels 5-8 combined with an adolescent development course in order to help prepare students who desire to teach at those levels in schools that do not require certification for employment.

## NATIONAL TEACHERS' EXAMINATIONS

Education majors seeking PA state certification will be required to take the National Teachers' Examinations (PRAXIS) at their own expense. We require students to take the first three exams (General Knowledge Tests in reading, writing, and mathematics) before the end of their second year. Passing scores are required for students to be formally accepted into the program. Score reports should be sent to both the student and Holy Family University. Education majors who seek state certification will be required to take two additional national exams (PRAXIS II) at the end of their program.

# ENGLISH LANGUAGE AND LITERATURE MAJOR

The English Language and Literature program leading to the baccalaureate degree gives the student a firm background and skills in reading, writing, and criticism—tools that are vital for effective work in many segments of society. The program also provides a solid foundation for graduate study in a number of disciplines. The major immerses the student in the cultural wealth of literature written in or translated into English.

The major offers two tracks: language and literature and writing. These tracks are outlined below.

Applicants should have compiled at least 18 credits with a minimum GPA of 2.50 overall, and 2.70 in English and Writing courses. 130 credits and a GPA of 2.00 are required for graduation.

The Interdisciplinary (ID) Major presents a unique opportunity for students to combine studies in any two of a number of selected liberal arts areas and develop in a structured way the interrelationships of different fields of knowledge.

Of the credits required for the bachelor of arts degree, a minimum of 30 credits must be taken in the two areas, a minimum of six credits above the 200-level and 15 credits beyond the 100-level in each area. A three-credit internship or additional 300-level course in one of the two areas is also required. Each academic area of the ID Program has its own list of course requirements. See the ID program director, Dr. Soni Werner, for a list of available areas and the specific requirements in each. There are currently nine academic areas to choose from: Art, Biology, English, History, Mathematics, Management, Philosophy, Psychology, and Religion.

In addition to completing course requirements in each academic area, students in the ID major also undertake a capstone experience involving a senior research essay completed during ID 495. The capstone brings together the two academic areas within the context of New Church doctrine. The senior research essay is completed under the guidance of two faculty members who together evaluate the final product. The capstone experience involves a total of six credits:

Junior year, Spring term, 1 credit	ID 390. Research Seminar
Senior year, Fall term, 1 credit	ID 494. Senior Seminar 1
Senior year, Winter term, 3 credits	ID 495. Senior Essay: Written Product
Senior year, Spring term, 1 credit	ID 496. Senior Seminar 2

Beyond the above specified requirements, students need to complete the Core requirements, the requirements of each ID area, and a total of at least 130 credits. Students must earn a GPA of at least 2.00 in each academic area and a GPA of 2.00 overall in order to graduate.

Application to the ID Program may be made after earning at least 50 college credits. For entrance, the College requires an overall 2.00 GPA minimum, with a 2.50 minimum in each of the intended areas (based on at least two courses in each area). Because the capstone experience in the ID Major depends heavily on research and writing ability, students must earn a minimum score of 2 in at least two Writing or Writing Intensive (W) courses and a minimum score of 1 in one Information Literacy (IL) course before acceptance into the major.

Students who have applied for entrance to the major but do not meet all of the entrance requirements will not be admitted to the major on any sort of provisional basis.

Inquiries regarding an ID Major should be made to the ID program directors, Dr. Soni Werner and Dr. A. Fredrik Bryntesson.

## PSYCHOLOGY MAJOR

As part of the four-year degree requirements, students must complete a senior research project and senior seminars. The senior research project is under the supervision of a Bryn Athyn College faculty member. Proposals for this project must be submitted by the students in junior year, and accepted by the psychology faculty.

## **RELIGION MAJOR**

The Religion Major provides disciplined and systematic instruction in religion, with the aim of an overall comprehension of the doctrines of the New Church, in a sphere of rational discussion and creative thinking. Topics include the meaning of the New Church in relation to faith, the Word of the Lord, marriage and the home, creation, the Lord's providence, world religions, and sacred languages. Students have the opportunity to integrate their religious faith in ways that contribute to their own regeneration, their religious community, and the world.

For entrance into the religion major, students apply to the program director, Rev. Stephen Cole. Applicants should have an overall GPA of at least 2.50, with 3.00 in religion courses and major-related courses. Students in the major must maintain an overall GPA of 2.50 to graduate. Of the total 130 credits required for the bachelor of arts degree, 42 must be taken in religion and major-related subjects as set out below:

- These 42 credits shall be beyond the courses taken to satisfy the religion residency requirements in the freshman and sophomore years.

## RELIGION MINOR

A religion minor is offered with most other majors. Students should apply to the program director, Rev. Stephen Cole, no later than the end of junior year.

Of the total 130 credits required for bachelor of arts degree, 15 credits (5 courses) must be beyond the courses taken to satisfy the religion residency requirements in the freshman and sophomore years.

## SECOND BACCALAUREATE

Students with a baccalaureate (from Bryn Athyn College or elsewhere) who wish to earn another baccalaureate from Bryn Athyn College must do the following:

1. Apply for admission to the degree program and satisfy all admission requirements.
2. With the appropriate major advisor, work out a program that
  - satisfies all the requirements of that major (by transfer and by completing courses at Bryn Athyn College)
  - satisfies all Core requirements (this may be done by transfer, proficiency tests, and completing courses at Bryn Athyn College)
  - includes an additional 30 credits at the 200-level or higher beyond the previous baccalaureate.
3. Obtain approval from the academic dean who will consult with the Curriculum and Academic Policy Committee. A written statement confirming the approved requirements will be placed in the student's file.

Students whose first degree is from Bryn Athyn College will not be eligible for financial aid.

## RESERVE OFFICERS' TRAINING CORPS (ROTC)

### AIR FORCE RESERVE OFFICERS' TRAINING CORPS (AFROTC)

Bryn Athyn College students are eligible to participate in the AFROTC through a cross-enrollment agreement with St. Joseph's University. All aerospace studies courses will be held on the St. Joseph's campus. The AFROTC program enables a college student to earn a commission as an Air Force officer while concurrently satisfying requirements for a baccalaureate degree.

The AFROTC program at St. Joseph's University offers a curriculum leading to a commission as a second lieutenant in the Air Force. In the standard four-year curriculum, a student takes the General Military Course (GMC) during the freshman and sophomore years, attends a four-week summer training program, and then takes the Professional Officer Course (POC) in the junior and senior years. However, students may begin the program as long as they have at least two years left before graduation. In the shortened curriculum, students will take a combination of aerospace studies courses depending on their class standing. They then attend a five-week summer training program and enter the POC. A student is under no contractual obligation to the Air

Force until entering the POC or accepting an Air Force scholarship.

The subject matter of the first two years is developed from a historical perspective and focuses on the scope, structure, and history of military power, with an emphasis on the development of air power. During the last two years, the curriculum concentrates on the concepts and practices of leadership and management and the role of national security forces in contemporary American society.

In addition to the academic portion of the curricula, each student participates in a leadership laboratory for two hours each week during which the day-to-day skills and working environment of the Air Force are explored. The leadership lab uses a student organization designed for the practice of leadership and management techniques.

AFROTC offers scholarships on a competitive basis to qualified applicants participating in the program. All scholarships cover tuition, lab fees, and books, plus a tax-free monthly stipend. All members of the POC, regardless of scholarship status, receive the tax-free monthly stipend.

For further information on the cross-enrollment program, scholarships, and career opportunities, contact the Professor of Aerospace Studies, AFROTC Det 750, Saint Joseph's University, Philadelphia, PA 19131; (610) 660-3190; [rotc@sju.edu](mailto:rotc@sju.edu); <http://www.sju.edu/academics/cas/afrotc/>.

### **ARMY RESERVE OFFICERS' TRAINING CORPS (AROTC)**

The military science courses are held at Temple University's main campus and are taught by the University's Department of Military Science. Students enroll for the courses at Bryn Athyn College and pay Bryn Athyn College tuition fees. Credit is earned both at Bryn Athyn College and Temple University. Before enrolling in a course, a student must get permission from the Temple Department of Military Science (Room 410, Ritter Hall Annex, 215-204-7480).

AROTC is an elective curriculum taken along with required college classes. It gives the tools, training, and experiences to build success in any competitive environment. Along with leadership training, AROTC can pay for college tuition. Because AROTC is an elective, students can participate during freshman and sophomore years without any obligation to join the Army. Students have a regular college experience like other students on campus, but upon graduation they become commissioned officers in the Army. At that point, students will have a wide range of interest areas (called branches) for specialization.

The Basic Course takes place during the first two years in college as elective courses. It normally involves one elective class and lab each semester along with the requisite physical training and field training exercises. Students learn basic military skills and the fundamentals of leadership, and they start the groundwork toward becoming an Army

leader. Students may take AROTC Basic Courses without a military commitment.

Basic Course subjects include: Introduction to Army Leadership, Army Customs and Traditions, Military Operations and Tactics, Goal Setting and Mission Accomplishment, Applied Leadership Theory, Principles of War, Stress Management, and Health and Physical Fitness.

The Advanced Course takes place during the last two years in college as elective courses. It normally includes one elective class and lab each semester in addition to the requisite physical training and field training exercises, plus a summer leadership camp. Students learn advanced military tactics and gain experience in team organization, planning, and decision-making. To benefit from the leadership training in the Advanced Course, all Cadets must have completed either the Basic Course or have attended the Leader's Training Course. Entering the Advanced Course requires a commitment to serve as an Officer in the U.S. Army after graduation.

Advanced Course subjects include: Command and Staff Functions, Law of War, Weapons, Team Dynamics and Peer Leadership, Military Operations and Tactics, Training the Force, Military Justice, Ethical Decision Making, Personnel Management, Cultural Awareness, and Post and Installation Support.

Two-, three-, and four-year scholarships are available for students who meet qualification standards. Contact the recruiting officer at (215) 204-7482 or see the information at <http://www.armyrotc.com/edu/temple/index.htm>.

## **EXPERIENTIAL EDUCATION**

Experiential Education includes academic courses, internships, and service learning opportunities. These opportunities provide students with the experience of combining academic work and experience outside of the classroom. Students learn through participation and reflection. In exchange, the students add value to the organizations that co-sponsor these learning experiences. These personalized learning endeavors are a specialty of Bryn Athyn College.

The Core Program requires every baccalaureate graduate to complete a minimum of one credit in experiential education for graduation:

For most 100-level internships and service learning contact:

Director of Experiential Education  
Box 717, Bryn Athyn College  
Bryn Athyn, PA 19009-0717  
(267) 502-2412

## **INTERNSHIP PROGRAM**

Internships are generally used for career exploration and self-exploration. Students are eligible for internships once they have completed two full terms at Bryn Athyn College, have earned a GPA of 2.70 or better, and are in good academic and disciplinary standing. Internships may be paid or unpaid and generally last an entire term, but other schedules can be arranged with faculty approval. An intern should be enthusiastic, punctual, and reliable.

For 100-level internships, students apply to the Director of Experiential Education. For 200-level and higher, students apply to the faculty member in charge of the subject area. While students will be offered guidance and contacts in designing an internship, the student is responsible for securing internship openings. Internships are awarded credit at approximately 67 hours per credit, thus a 3 credit internship requires 200 hours. Students may apply up to 12 credits in internships toward the credit requirement for a baccalaureate. Each field has unique internship requirements, including papers and presentation, but all require a learning plan and a reflective component.

Summer internships are Bryn Athyn College courses and are recorded for the summer session. Students pay an internship fee equivalent to 0.5 credits, regardless of the number of credits earned, plus any additional costs needed to cover faculty oversight, as relevant. The registration deadline for summer internships is May 1. Internships performed during the summer may not be recorded in a term other than the summer session, even if preparatory work is undertaken in an earlier term.

## **SERVICE LEARNING**

Service learning is designed to enhance a student's civic and societal awareness by combining academic instruction, purposeful service, and critical reflection. Service learning assists students in thinking broadly about a particular subject area and can often help students define career interests. Current offerings include such things as coaching and student teaching. Service credits are awarded at approximately 67 hours per credit. Some service learning opportunities are embedded in academic courses, such as health, psychology, and leadership, where service is done through a component of the course outlined in a syllabus. Students may also participate in the service learning program through college sponsored service trips by registering for Experiential Education 100 or Experiential Education 196. To qualify for off-campus service learning projects students must be in good academic and disciplinary standing.

## **INTERNATIONAL OPPORTUNITIES**

Bryn Athyn College offers opportunities for international experiences through its internship, service learning (see above) and study abroad programs.

## STUDY ABROAD

Bryn Athyn College has a number of established study abroad programs that allows students to study abroad for a semester, year, summer, or over college breaks.

Students apply to study abroad through the Office of International Studies. The Office of International Students advises students on all aspects and throughout the process of studying abroad. To qualify for study abroad on semester and year programs students must: 1) Be full-time students; 2) Have completed at least three terms; 3) Be in good academic and disciplinary standing; 4) Have a cumulative GPA of 2.50 or higher; 5) Must meet the minimum academic and application standards of the host institution prior to acceptance for study. Students should contact the Office of International Studies for application information and deadlines.

Credits earned while studying abroad can be applied to majors at Bryn Athyn College subject to approval. Students should meet with their academic advisors prior to departure to work out a course of study that meets their program needs. Students may use financial aid to meet the costs of studying abroad. The Financial Aid Office will advise students on their financial aid eligibility.

Students are required to have health insurance for the duration of their study abroad. Some programs require that this be purchased on site.

## STUDY ABROAD PROGRAM TYPES

## GRADUATE DEGREE PROGRAMS

Bryn Athyn College offers two graduate degree programs: a Master of Divinity and a Master of Arts in Religious Studies.

The Master of Arts in Religious Studies program enables students not looking towards ordination to undertake an in-depth study of the Heavenly Doctrines of the New Church at a graduate level.

The Master of Divinity is a three year professional degree leading towards ordination as a priest in the General Church of the New Jerusalem.

### THE MASTER OF ARTS IN RELIGIOUS STUDIES

This program makes it possible for students to explore New Church teachings in detail. In order to take advantage of the program's offerings, a general knowledge of the teachings of the Writings and New Church thought and a liberal arts background are expected. Although background in the sacred languages is not required, any familiarity

with Hebrew, Greek, or Latin is beneficial. Being able to communicate clearly and fluently in English, both written and spoken, is essential.

The full course of study may be taken for the degree, or a limited number of courses selected on personal interest may be taken. Interested applicants should hold a bachelor's degree from an accredited institution, or the equivalent, with an undergraduate GPA of at least 2.50. In addition, international students who are not native English speakers must submit TOEFL scores. The minimum TOEFL scores accepted are 213 if the test was taken by computer, or 550 if it was written.

The degree program emphasizes theology, provides opportunities to explore some secular areas, and allows a student to develop an integrative thesis. Graduation requires the completion of 30 credits (ten courses) with a minimum overall GPA of 2.70. Course work for the degree must be completed within seven years of commencing classes.

### THESIS REQUIREMENT

The thesis is the capstone of the program and is required of all students for whom English is their mother tongue or who have a sufficient proficiency in English. The question explored in the thesis should be built upon the course of study undertaken by the student. The purpose of the thesis is to help the student integrate his or her own program. It is an opportunity for the student to analytically use a doctrinal framework to examine some specific intellectual concern. English Language Learner (ELL) students may opt to take two additional courses and a comprehensive exam rather than write a thesis.

**THE MASTER OF DIVINITY DEGREE**

Applicants to the Master of Divinity program should have a bachelor's degree from an accredited institution, or equivalent. The program rests upon three supports: doctrinal study, communication skills, and experiential learning. Each plays a vital role in preparing men to "teach the truth and lead by means of it to the good of life."

Doctrinal study forms the primary foundation of the New Church ministry. A minister needs to be conversant with the teachings of the Old and New Testaments,

and particularly with the teachings for the New Church, known as the “Heavenly Doctrines.”

Communication skills provide students with the ability to teach and lead in the light of doctrinal study. Skills developed in this part of the program equip the future minister to communicate the message of the New Church effectively in a variety of situations.

Experiential learning is the final support of training for the ministry. The experiential component of ministerial training is designed to bring students into contact with a range of people of different ages and different settings. The “learning” refers to the on-going discussion and measurement as students integrate their doctrinal knowledge and communication skills with people.
